

Builtmore Contract Manufacturing Powers Up Production of Isuzu's All-New NRR-EV

September 3, 2024

Production Begins in Charlotte, Michigan, Demonstrates Builtmore's Agility in Adapting to the Evolving EV Market

CHARLOTTE, Mich., Sept. 3, 2024 /PRNewswire/ -- Builtmore Contract Manufacturing™, a go-to-market brand of The Shyft Group, Inc. (NASDAQ: SHYF), the North American leader in specialty vehicle manufacturing, assembly and upfit for the commercial, retail and service specialty vehicle markets, has commenced production of the Isuzu NRR-EV at its facility in Charlotte, Michigan. This achievement stems from a long-standing relationship between Builtmore and Isuzu North America Corporation, bringing an innovative electric vehicle option to the commercial market.

"The start of production for the Isuzu NRR-EV highlights the strong collaboration between Builtmore and Isuzu and our shared commitment to the future of commercial vehicles," said Jacob Farmer, Shyft Group President, Fleet Vehicles and Services and Specialty Vehicles. We are proud to support Isuzu in bringing this innovative electric vehicle to market and advancing sustainable transportation."

The all-new Isuzu NRR-EV combines advanced electric powertrain technology with a versatile design to meet the evolving needs of commercial fleets. It features multiple battery configurations and regenerative braking for optimal performance, along with state-of-the-art driver assistance systems and fast-charging capabilities for enhanced safety and convenience. The vehicle's durable, high-tensile-strength frame and improved aerodynamics ensure both efficiency and longevity.

This production launch underscores Builtmore's commitment to manufacturing excellence and its ability to meet the evolving demands of the electric vehicle market. Builtmore has also implemented extensive employee training to ensure a safe and efficient manufacturing environment, reinforcing its dedication to quality and safety.

The Isuzu NRR-EV is now available for ordering, with first deliveries expected in September 2024.
