

First Blue Arc™ Class 4 EV Trucks Ship

December 10, 2024

NOVI, Mich., Dec. 10, 2024 /PRNewswire/ -- The Shyft Group, Inc. (NASDAQ: SHYF), a North American leader in specialty vehicle manufacturing, assembly, and upfit for the commercial, retail, and service specialty vehicle markets, today announced the first shipments of its Blue Arc™ Class 4 EV truck to multiple customers, including initial deliveries to a leading parcel delivery customer. These shipments mark the transition to regular production to meet demand for electrified fleet solutions.

"This is an exciting and proud moment for the Blue Arc team," said John Dunn, President and CEO of the Shyft Group. "What started in 2021 as a bold vision for fleet electrification has become a reality thanks to the dedication, expertise, and collaboration of our team. Together, we've delivered a commercial-grade vehicle that meets the demanding standards of our fleet partners and supports their transition to more sustainable fleet operations."

These shipments are the result of three years of customer collaboration, rigorous testing, and advanced manufacturing development. Created through Shyft's Work-Driven Design® process, the Blue Arc Class 4 EV truck reflects input from fleet operators and drivers, ensuring it prioritizes reliability, comfort, and versatility.

The commercial-grade truck features ergonomic seating, a noise-reducing cab, advanced safety systems such as automatic electronic parking brakes and keyless entry with auto-lock capabilities, and configurable cargo spaces ranging from 600 to 1,000 cubic feet. Designed to adapt to diverse fleet applications, it delivers exceptional performance without compromising payload or range.

About The Shyft Group
