Speaker Cotter, of Michigan's 99th District, and District 71 Representative Tom Barrett (encompassing Charlotte, Mich.) visited Spartan's Charlotte campus in an effort to understand better the unique nature of Spartan's engineering, manufacturing and assembly processes, across multiple varied markets. Of particular interest to the group, were the Company's recent significant operational changes, enabling Spartan to create their industry-leading products more

efficiently and with higher quality.

"Spartan's manufacturing and assembly facilities span across the country, but we're seeing a model of excellence, and what they're capable of, right here in Charlotte, in the heart of America's manufacturing capital - Michigan," explained Speaker Cotter. "I'm very impressed with the diversity of innovation and processes – across verticles – that take place on this campus. From RV chassis to fully-equipped fire apparatus and custom drill rigs, the expertise this company and its employees bring to the table is making a big impact on Michigan's economy, and beyond."

While visiting Spartan, Speaker Cotter greeted employees and talked about the importance of responsive manufacturing and a customer-centric midset, in today's evolving and hyper competitive global marketplace.

"One thing Spartan does better than most is to insist on an upfront, complete needs analysis to assess fully our customers objectives, and how Spartan can help them moving forward. Once our teams complete that analysis, they transfer that knowledge into vehicles and services designed and custom engineered to help our clients meet their goals – in their specific environments – so they can better serve their customers and communities," said Daryl Adams, President and Chief Executive Officer, Spartan Motors.

About Spartan Motors

Spartan Motors, Inc. designs, engineers and manufactures specialty chassis, specialty vehicles, truck bodies and aftermarket parts for the recreational vehicle (RV), emergency response, government services, defense, and delivery and service markets. The Company's brand names – Spartan™, Spartan Chassis™, Spartan ER™, Spartan ERV™ and Utilimaster® – are known for quality, performance, service and first-to-market innovation. The Company employs approximately 1,700 associates at facilities in Michigan, Pennsylvania, South Dakota and Indiana. Spartan reported sales of \$507million in 2014 and is focused on becoming a global leader in the design, engineering and manufacture of specialty vehicles and chassis.
