Spartan Motors Delivers Strong Fourth Quarter and Full Year 2017 Results

March 1, 2018

- Fourth Quarter EPS up 133% to \$0.07, Adjusted EPS up 175% to \$0.11

- Full Year EPS up 84% to \$0.46, Adjusted EPS up 34% to \$0.43

CHARLOTTE, Mich., March 1, 2018 /PRNewswire/ -- Spartan Motors, Inc. (NASDAQ: SPAR) ("Spartan" or the "Company"), a leader in specialty chassis and vehicle design, manufacturing and assembly, today reported operating results for the fourth quarter and full year periods ending December 31, 2017.

Full Year 2017 Highlights

For the full year 2017 compared to the full year 2016:

- Sales increased \$116.3 million, or 19.7%, to \$707.1 million from \$590.8 million
- Net income improved \$7.3 million, or 85.2%, to \$15.9 million, or \$0.46 per share, from \$8.6 million, or \$0.25 per share
- Adjusted EBITDA increased 37.0% to \$31.3 million, or 4.4% of sales, from \$22.9 million, or 3.9% of sales
- Adjusted net income improved 34.5% to \$14.9 million, or \$0.43 per share, from \$11.1 million, or \$0.32 per share
- Emergency Response segment was profitable – achieving \$3.2 million of adjusted EBITDA

Fourth Quarter 2017 Highlights

For the fourth quarter of 2017 compared to the fourth quarter of 2016:

- Sales increased \$35.2 million, or 24.1%, to \$181.1 million from \$145.9 million
- Gross profit margin improved 130 basis points to 13.6% of sales from 12.3% of sales
- Net income improved \$1.5 million, or 158.9%, to \$2.4 million, or \$0.07 per share, from \$0.9 million, or \$0.03 per share
- Adjusted EBITDA increased 118.3% to \$9.3 million, or 5.1% of sales, compared to \$4.3 million, or 2.9% of sales
- Adjusted net income improved 156.4% to \$3.9 million, or \$0.11 per share from \$1.5 million, or \$0.04 per share
- Emergency Response segment was profitable – achieving \$2.7 million of adjusted EBITDA

"With our 2017 fourth quarter net income more than doubling, which also marks our eighth consecutive profitable quarter on an adjusted basis, Spartan has successfully completed its turnaround and is now focused on its growth strategy as we move into 2018 and beyond," said Daryl Adams, Spartan President and Chief Executive Officer. "We can take pride in the strong performance we posted throughout the year, which was based on the actions we took to transition our company to a leader in purpose-built specialty vehicles that is focused on performance and innovation."

Full Year 2017 Segment Results

For the full year 2017 compared to the full year 2016:

Fleet Vehicles and Services (FVS)

FVS segment sales decreased 9.8% to \$251.1 million from \$278.4 million. Revenues declined primarily due to the timing of a large last mile delivery upfit order that did not reoccur in 2017.

Adjusted EBITDA decreased \$4.2 million to \$27.0 million, or 10.7% of sales, from \$31.2 million, or 11.2% of sales, a year ago, primarily due to the nonrecurring last mile delivery upfit order, which was partially offset by operational improvements.

The Segment backlog at December 31, 2017 totaled \$267.7 million, up 198.9%, compared to \$89.5 million at December 31, 2016, as a result of the previously announced multi-year contract with the United States Postal Service (USPS).

Emergency Response (ER)

ER segment sales increased 65.5% to \$302.9 million from \$183.0 million. The sales increase reflects increased product optimization resulting from the successful integration of Smeal and rationalization of the Company's dealer network.

Adjusted EBITDA increased \$10.7 million to \$3.2 million, or 1.1% of sales, from an adjusted EBITDA loss of \$7.5 million a year ago. The increase was primarily the result of increased sales, improved operational performance and warranty cost reduction. Adjusted EBITDA loss in 2016 included adjustments totaling \$3.5 million in legacy product recalls.

The Segment backlog at December 31, 2017 totaled \$233.6 million, up 67.0%, compared to \$139.9 million at December 31, 2016.

Specialty Chassis & Vehicles (SCV)

SCV segment sales increased 17.9% to \$158.8 million from \$134.8 million. Sales of motorhome chassis increased 27.1% to \$124.6 million from \$98.0 million, primarily due to increased motorhome shipments year-over-year as a result of market share gains.

Adjusted EBITDA increased \$5.8 million to \$14.1 million, or 8.9% of sales, from \$8.3 million, or 6.2% of sales, a year ago, primarily due to increased sales and improved operational performance.

The Segment backlog at December 31, 2017 totaled \$33.8 million, up 68.7%, compared to \$20.0 million at December 31, 2016, as a result of increased motorhome orders.

"The performance of each of our business segments was powerful in 2017, but perhaps the most dramatic performance was the turnaround in ER," continued Adams. "With the integration of Smeal, we were able to grow top-line ER revenue by 66% while improving adjusted EBITDA by nearly \$11 million. We continued to make good progress in SCV, with solid growth in revenues and adjusted EBITDA with the introduction of new innovative products and platforms to expand our addressable market and market share in motorhomes. In the FVS business, we saw some topline headwinds in 2017 relating to the timing of follow-on last-mile delivery orders, but we are encouraged with the prospect of significant growth in 2018 with normalized order flow and the addition of the USPS contract, the largest in Spartan's history."

2018 Outlook

"We are proud of our financial performance in 2017, which will provide a sound foundation for future long-term growth, increased shareholder value and an acceleration of earnings growth in 2018," said Rick Sohm, Chief Financial Officer of Spartan Motors. "Our strong financial position will enable Spartan to invest in our future growth in 2018 and beyond by expanding R&D efforts for new product innovations and enhancing our operational competencies, exploring alternative fuel technologies and expanding our manufacturing capabilities at our Ephrata, Pennsylvania facility to meet the growing last mile delivery demand. With each of our business segments now profitable, we expect our incremental investments and the new USPS order to drive additional revenues, positioning Spartan to achieve its financial objectives in 2020."

Outlook for full year 2018 is expected to be as follows:

- Revenue to be in the range of \$790.0 - \$815.0 million
- Net income of \$18.8 - \$21.0 million
- Adjusted EBITDA of \$39.0 - \$42.0 million
- Effective tax rate of approximately 28%
- Earnings per share of \$0.54 - \$0.60, assuming approximately 35.3 million shares outstanding
- Adjusted earnings per share of \$0.56 - \$0.62

Adams concluded, "It's an exciting time for Spartan Motors, as we have worked as a team to bring significant change and improved financial performance to our Company. Exceeding our targets for the fourth quarter and full year 2017 is about more than hitting our numbers. It's proof positive that the changes we made to execute the turnaround and

position Spartan for a future of sustainable, profitable growth continue to pay dividends. We have a formula in place that has successfully driven operational improvements within each of our business units. We will continue to apply this winning formula, as we aggressively take the turn into growth mode. We are confident that the near-term investments we'll make, coupled with the momentum achieved over the past two years, will have a positive impact in 2018 and beyond."

Reconciliation of Non-GAAP Financial Measures

This release contains adjusted EBITDA (earnings before interest, taxes, depreciation and amortization), adjusted net income, adjusted earnings per share, forecasted adjusted EBITDA, and forecasted adjusted earnings per share, which are all non-GAAP financial measures. These non-GAAP measures are calculated by excluding items that we believe to be infrequent or not indicative of our continuing operating performance. For the periods covered by this release such items include expenses associated with restructuring actions taken to improve the efficiency and profitability of certain of our manufacturing operations, expenses related to product recall campaigns, non-cash charges related to the impairment of assets, expenses related to business acquisition activities, the impact of the step-up in inventory value associated with the recent business acquisition, and the impact of the business acquisition on the timing of chassis revenue recognition.

We present the non-GAAP measures adjusted EBITDA, adjusted net income and adjusted earnings per share because we consider them to be important supplemental measures of our performance. The presentation of adjusted EBITDA enables investors to better understand our operations by removing items that we believe are not representative of our continuing operations and may distort our longer term operating trends. The presentation of adjusted net income and adjusted earnings per share enables investors to better understand our operations by removing the impact of tax adjustments, including the impact that our deferred tax asset valuation allowance that we recorded in 2015 has had on our tax expense and net income in 2015 and subsequent periods, the impact of a tax deduction for the write-off of an investment in a subsidiary, the impact of the Tax Cuts and Jobs Act on tax expense recorded in 2017, and other items that we believe are not indicative of our longer term operating trends. We believe these measures to be useful to improve the comparability of our results from period to period and with our competitors, as well as to show ongoing results from operations distinct from items that are infrequent or not indicative of our continuing operating performance. We believe that presenting these non-GAAP measures is useful to investors because it permits investors to view performance using the same tools that management uses to budget, make operating and strategic decisions, and evaluate our historical performance. We believe that the presentation of these non-GAAP measures, when considered together with the corresponding GAAP financial measures and the reconciliations to those measures, provides investors with additional understanding of the factors and trends affecting our business than could be obtained in the absence of these disclosures.

Our management uses adjusted EBITDA to evaluate the performance of and allocate resources to our segments. In addition, non-GAAP measures are used by management to review and analyze our operating performance and, along with other data, as internal measures for setting annual budgets and forecasts, assessing financial performance, and comparing our financial performance with our peers. Adjusted EBITDA is also used, along with other financial and non-financial measures, for purposes of determining annual and long-term incentive compensation for our management team.

About Spartan Motors

Spartan Motors, Inc. is a leading designer, engineer, manufacturer and marketer of a broad range of specialty vehicles, specialty chassis, vehicle bodies and parts for the fleet and delivery, recreational vehicle (RV), emergency response, defense forces and contract assembly (light/medium duty truck) markets. The Company's brand names — Spartan Motors, Spartan Specialty Vehicles, Spartan Emergency Response, Spartan Parts and Accessories, Smeal and its family of brands, including Ladder Tower™ and UST®; and Utilimaster®, a Spartan Motors Company — are known for quality, durability, performance, customer service and first-to-market innovation. The Company employs approximately 2,300 associates, and operates facilities in Michigan, Indiana, Pennsylvania, Missouri, Wisconsin, Nebraska, South Dakota; Saltillo, Mexico; and Lima, Peru. Spartan reported sales of \$707 million in 2017. Visit Spartan Motors at theshyftgroup.com.

This release contains several forward-looking statements that are not historical facts, including statements concerning our business, strategic position, financial projections, financial strength, future plans, objectives, and the performance of our products and operations. These statements can be identified by words such as "believe," "expect," "intend," "potential," "future," "may," "will," "should," and similar expressions regarding future expectations. These forward-looking statements involve various known and unknown risks, uncertainties, and assumptions that are difficult to predict with regard to timing, extent, and likelihood. Therefore, actual performance and results may materially differ from what may be expressed or forecasted in such forward-looking statements. Factors that could contribute to these differences include operational and other complications that may arise affecting the implementation of our plans and business objectives; continued pressures caused by economic conditions and the pace and extent of the economic recovery; challenges that may arise in connection with the integration of new businesses or assets we acquire or the disposition of assets; restructuring of our operations, and/or our expansion into new geographic markets; issues unique to government contracting, such as competitive bidding processes, qualification requirements, and delays or changes in funding; disruptions within our dealer network; changes in our relationships with major customers, suppliers, or other business partners, including Isuzu; changes in the demand or supply of products within our markets or raw materials needed to manufacture those products; and changes in laws and regulations affecting our business. Other factors that could affect outcomes are set forth in our Annual Report on Form 10-K and other filings we make with the Securities and Exchange Commission (SEC), which are available at www.sec.gov or our website. All forward-looking statements in this release are qualified by this paragraph. Investors should not place undue reliance on forward-looking statements as a prediction of actual results. We undertake no obligation to publicly update or revise any forward-looking statements in this release, whether as a result of new information, future events, or otherwise.
