## **Spartan Motors' Grand Opening of New Plant Expands Successful Alliance Between Leading Global Manufacturers**

June 13, 2017

### **Event Showcases new, Fully Equipped Plant and First Isuzu F-Series Truck Built**

CHARLOTTE, Mich., June 13, 2017 /PRNewswire/ -- [Spartan Specialty Vehicles](#), a business unit of [Spartan Motors, Inc.](#) (NASDAQ: SPAR) ("Spartan" or the "Company") – a leader in the manufacturing of high-quality specialty chassis and vehicle assembly – today celebrates the grand opening of its new, flexible manufacturing facility in Charlotte, Michigan. The ceremony featured a tour of the facility and the plant's production of the all-new 2018 Isuzu FTR Class 6 medium-duty truck, designed to optimize fuel efficiency and maximize cargo space in order to serve the growing urban and last-mile delivery segments.

The F-Series truck represents an expanded alliance with Isuzu, as Spartan has been manufacturing the smaller Isuzu N-Series truck from a dedicated facility in Charlotte since 2011. In fact, Spartan produced its 40,000<sup>th</sup> Isuzu N-Series this year.

"At Spartan, our core competencies are reflected through contract manufacturing and investment in the local communities; and today's ceremony represented that," said Daryl Adams, President and CEO, Spartan Motors. "We are happy to have had the opportunity to celebrate our expanded alliance with Isuzu, which will bring more than 100 new jobs to the region, and recognize the great work our employees are doing to help improve efficiency for our customers."

The new, 85,000-square-foot assembly plant represents a \$6.5 million investment to the local community, and will bring nearly 100 jobs to Spartan Motors and the region.

"The event today was a great opportunity to showcase the skilled workforce at this state-of-the-art facility, as they have done a remarkable job assembling high-quality trucks that support the growing last mile delivery infrastructure," said Steve Guillaume, President, Spartan Specialty Vehicles.

Multimedia assets from the ceremony are available [here](#).
