Spartan Motors Reports Second Quarter 2010 Results; Progress on Implementing Business Realignment and Continued Investments in Growth Initiatives

July 23, 2010

CHARLOTTE, Mich., July 23, 2010 /PRNewswire via COMTEX/ --

Spartan Motors, Inc. (Nasdaq: SPAR) today reported results for its 2010 second quarter, which included the impact of the previously announced business realignment plan. Spartan posted a net loss for the quarter of \$2.6 million, which included the unfavorable impact of these actions. Before one-time restructuring charges, adjusted net earnings from continuing operations was a positive \$0.9 million, or \$0.03 per diluted share.

Second-quarter highlights (which reflect Road Rescue as a discontinued operation):

- Net sales of \$115.7 million
- Gross margin of 14.3 percent of sales (15.1 percent before restructuring charges)
- Operating expenses of 14.2 percent of sales (13.4 percent before restructuring charges)
- Restructuring charges of \$1.8 million, or \$0.03 per diluted share, net of tax
- Cash balance of \$10.1 million (up \$5.7 million from Q1 2010)
- Debt of \$20.3 million (down \$3.1 million from Q1 2010)
- Consolidated backlog of \$205.7 million

John Szykiel, President and CEO of Spartan Motors, said: "In the second quarter, we focused our efforts on three key areas: exiting the Road Rescue business to focus on our more profitable markets, aligning our cost structure with our current and near term sales volumes and investing in promising and profitable growth opportunities. While we have a lot of complexity in our financial reports this quarter, when you peel back the results you will see that we made solid progress in our key financial metrics and also continued to invest in our strategic growth initiatives."

Exit from Road Rescue Business

- Spartan is fielding many inquiries from both strategic and financial buyers interested in acquiring Road Rescue
- Road Rescue has maintained the quality and reliability of shipments due to the dedication and commitment of the Marion, S.C. workforce
- All Road Rescue results are now classified as discontinued operations and presented below income from continuing operations, net of tax
- Spartan redefined reportable segments into Delivery and Service Vehicles, consisting of Utilimaster, and Specialty Vehicles, which consists of the Company's fire truck chassis, motorhome chassis, other vehicles, fire truck bodies and aftermarket parts and assemblies
- Net loss from Road Rescue for the second quarter was \$2.4 million, which includes \$1.8 million of impairment and restructuring charges, net of tax

Realigning Cost Structure

- Second quarter results from continuing operations included \$1.8 million in restructuring charges related to realigning the business to current level and mix of revenues
- Adjusted gross profit reached \$17.5 million, while adjusted gross margin increased to 15.1 percent - an improvement from first-quarter adjusted gross profit of \$16.9 million, or 14.3 percent

- Excluding restructuring charges, operating expenses in the quarter were reduced by \$0.7 million compared to the same period in 2009. In addition, the second quarter of 2010 included \$3.5 million of operating expenses related to Utilimaster that were not present in 2009 results
- Operating cash flow was \$22.1 million in the first six months of the year, driven by reduced working capital requirements that primarily consisted of a \$16.0 million reduction in inventory levels

Investment in Profitable Growth Opportunities

- R&D investment of \$1.2 million in the current quarter related to costs for two major product introductions - the recently announced Next Generation Commercial Van (NGCV) being developed in conjunction with Isuzu and the development of new cab and chassis products related to the 2010 emissions standards
- A prototype of the NGCV, a product of Spartan's alliance with Isuzu, rolled off the line at Utilimaster this past week; production still on track to begin in mid-2011
- Assembly relationship with Isuzu on the N-series chassis is proceeding according to plan, with production expected to begin in mid-2011
- Crimson Fire's new product, the "Transformer," is complete and is being well received in the marketplace having achieved its first sale in Texas

Joe Nowicki, Chief Financial Officer, said: "Despite the loss for the quarter, we are very pleased with the pace of progress in implementing cost management and balance sheet initiatives across the organization. We began last fall realigning our cost structure to current and near-term demand and focusing on areas of our business that generate profitable market share. The actions we are taking are difficult, but improvements in our operating results, excluding the one-time charges, demonstrate that we are gaining ground toward achieving our interim financial goal of mid single-digit operating income. In addition, we are making substantial progress on continuing to strengthen our balance sheet - improvements in receivables and inventories, both dollars and turns, enabled us to further pay down debt and grow our cash balances, providing enhanced financial stability and future opportunity."

Financial Overview

- Consolidated net sales for the quarter were \$115.7 million, down 2.6 percent from the same quarter last year due to lower sales of aftermarket parts and assemblies (APA), partially offset by incremental revenues from Utilimaster
- Gross margin in the second quarter of 2010 fell to 14.3 percent of sales (15.1 percent before restructuring charges), from 20.7 percent in the second quarter of 2009, primarily due to the shift in revenue mix to lower-margin products
- Net loss from continuing operations for the quarter was \$172,000, or \$0.00 per diluted share, compared with net earnings from continuing operations of \$5.5 million, or \$0.17 per diluted share, in the prior year's second quarter. Excluding restructuring charges, adjusted net earnings from continuing operations for the second quarter of 2010 was \$0.9 million, or \$0.03 per diluted share
- Consolidated backlog, excluding discontinued operations, at June 30, 2010 increased to \$205.7 million from \$150.1 million at June 30, 2009, driven by the addition of Utilimaster's backlog of \$43.3 million in the current period, which was not included in the consolidated backlog in the year-ago period
- Sequentially, consolidated backlog was relatively flat with increases at Utilimaster and APA (up 23 percent and 311 percent respectively), which were substantially offset by declines in Fire Truck Chassis and Fire Truck Bodies (down 22 percent and 19 percent respectively), illustrating the benefit of Spartan's efforts to diversify its revenue mix and end markets

Sztykiel concluded: "Looking forward, I continue to be optimistic about the future of Spartan Motors. We are making the difficult decisions and implementing the required actions to ensure our continued success in our existing markets. In addition, we continue to invest in the long-term opportunities that will fuel our growth in new and emerging markets. The first major catalyst, a prototype of our next generation commercial van and a product of our alliance with Isuzu, rolled off the line at Utilimaster this past week, and it looks great. The NGCV will definitely be a game-changer in the delivery and service marketplace. As we mentioned last quarter, we expect 2010 to be a year of implementation, and over the remainder of the year, our company-wide focus will be on maintaining solid profitability and top-line growth even in the midst of difficult market conditions. Our plan is simple and focused: compelling products, growth in profitable market share, cost and balance sheet management. The second quarter represents progress on all four fronts, and we expect that to continue as we move throughout the year."

Reconciliation of Non-GAAP Financial Measures

This release contains Adjusted Gross Profit, Adjusted Gross Margin, Adjusted Operating Expenses, Adjusted Net Earnings from Continuing Operations and Adjusted Earnings Per Share from Continuing Operations measures, which are all Non-GAAP financial measures. These are calculated by excluding items that we believe to be infrequent or not

indicative of our operating performance. For the periods covered by this release such items consist of expenses associated with restructuring actions taken to adjust our cost structure to the current business climate. We present these adjusted Non-GAAP measures because we consider them to be important supplemental measures of our performance and believe them to be useful to show ongoing results from operations distinct from items that are infrequent or not indicative of our operating performance.

The adjusted Non-GAAP measures are not measurements of our financial performance under GAAP and should not be considered as an alternative to Gross Profit, Gross Margin, Operating Expense, Net Earnings from Continuing Operations or Earnings Per Share from Continuing Operations under GAAP. These adjusted Non-GAAP measures have limitations as analytical tools and should not be considered in isolation or as a substitute for analysis of our results as reported under GAAP. In addition, in evaluating the adjusted Non-GAAP measures, you should be aware that in the future we may incur expenses similar to the adjustments in this presentation, despite our assessment that such expenses are infrequent or not indicative of our operating performance. Our presentation of the adjusted Non-GAAP measures should not be construed as an inference that our future results will be unaffected by unusual or infrequent items. We compensate for these limitations by providing equal prominence of our GAAP results and using adjusted Non-GAAP measures only as a supplement.

The following table reconciles Gross Profit to Adjusted Gross Profit, Gross Margin to Adjusted Gross Margin, Operating Expense to Adjusted Operating Expense, Net Earnings (Loss) from Continuing Operations to Adjusted Net Earnings from Continuing Operations, and Earnings Per Share from Continuing Operations to Adjusted Earnings Per Share from Continuing Operations for the periods indicated.

Conference Call, Webcast and Roadcast(TM)

Spartan Motors will host a conference call for analysts and portfolio managers at 10 a.m. ET today to discuss these results and current business trends. To listen to a live webcast of the call, please visit theshyftgroup.com, click on "Shareholders," and then on "Webcasts."

Spartan also will update the financial information on its Roadcast "digital roadshow" for investors. To launch the Spartan Motors Roadcast, please visit theshyftgroup.com and look for the "Virtual Road Show" link on the right side of the page.

About Spartan Motors

Spartan Motors, Inc. (theshyftgroup.com) designs, engineers and manufactures specialty chassis, specialty vehicles and truck bodies and aftermarket parts for the outdoor recreation/RV, emergency-response, defense, government services, and delivery and service markets. The Company's brand names - Spartan(TM), Crimson Fire(TM), Crimson Fire Aerials(TM), Road Rescue(TM) and Utilimaster(R) - are known for quality, value, service and being the first to market with innovative products. The Company employs approximately 1,600 at facilities in Michigan, Pennsylvania, South Carolina, South Dakota, Indiana and Texas. Spartan reported sales of \$430 million in 2009 and is focused on becoming a global leader in the manufacture of specialty vehicles and chassis.

This release contains forward-looking statements, including, without limitation, statements concerning our business, future plans and objectives and the performance of our products. Forward looking statements are identifiable by words such as "believe," "anticipate," "will," "sustain," and "continue." These forward-looking statements involve certain risks and uncertainties that ultimately may not prove to be accurate. For example, we may encounter unforeseen difficulties and challenges in entering new markets or in pursuing strategic acquisitions. In addition, technical and other complications may arise that could prevent the timely implementation of our plans or that may impact the expected outcome of those plans. As a result, actual results and future events could differ materially from those anticipated in such statements. The Company cautions that these forward-looking statements are further qualified by other factors including, but not limited to, those set forth in the Company's Annual Report on Form 10-K filing and other filings with the United States Securities and Exchange Commission (available at <http://www.sec.gov>). Government contracts and subcontracts typically involve long payment and purchase cycles, competitive bidding, qualification requirements, delays or changes in funding, extensive specification development and changes, price negotiations and milestone requirements. An announced award of a governmental contract is not equivalent to a finalized executed contract and does not assure that orders will be issued and filled. Government agencies also often retain some portion of fees payable upon completion of a project and collection of contract fees may be delayed for long periods, which can negatively impact both prime contractors and subcontractors. The Company undertakes no obligation to publicly update or revise any statements in this release, whether as a result of new information, future events or otherwise, except as required by law.
