Spartan Motors' Utilimaster Showcases Utilivan Commercial Truck Body At General Motors' Fleet Summit

May 28, 2019

CHARLOTTE, Mich., May 28, 2019 /PRNewswire/ -- Spartan Fleet Vehicles and Services ("Spartan"), a business unit of Spartan Motors, Inc. (NASDAQ: SPAR) that goes-to-market under the Utilimaster® and Strobes-R-Us® brands, displayed its Utilivan™ truck body on a General Motors (GM) chassis at the GM Fleet Solutions Summit, held from May 19-22 in Dallas, TX. The Utilivan is a highly-customizable commercial truck body designed to meet the rigorous and varied demands of commercial product and service delivery.

"Utilimaster is committed to driving intelligent vehicle solutions across the commercial vehicle industry. The Utilivan is an important vehicle in our product portfolio due to its versatility in commercial applications," said Chad Heminover, President, Spartan Motors Fleet Vehicles and Services. "At the Summit, we showcased a variety of possible upfit configurations. Partnering with General Motors, we look forward to pairing our customers with a versatile vehicle solution that delivers optimal performance, no matter the load."

Utilivan bodies are available in both Utiliplate™ – a Spartan Motors' highly-specialized composite material meant to withstand harsh weather conditions – or in aluminum. In either material, the Utilivan is built to deliver optimum performance through maximum versatility. The Utilivan features a lighter-weight body than traditional truck bodies without compromising strength or durability. The Utilivan features a cutaway chassis that allows for driver pass-through to the cargo area, and includes options such as, side doors, an aerocap for increased fuel efficiency, back-up cameras and sensors, and customizable shelving, alongside other available innovations. Available on both GM and Ford chassis platforms, the Utilivan ranges from 10' to 18' in length.

Attended by more than 800 commercial, government, and daily-rental fleet customers, the GM Fleet Solutions Summit showcases solutions for GM customers' needs, displays new product lineups, and provides updates from General

Motors.
