### Second Quarter 2024 Financial Highlights

For the second quarter of 2024 compared to the second quarter of 2023:

- Sales of \$192.8 million, a decrease of \$32.3 million, or 14.4%, from \$225.1 million
- Net income of \$2.2 million, or \$0.06 per share, compared to \$4.7 million, or \$0.13 per share
- Adjusted EBITDA of \$12.5 million, or 6.5% of sales, a decrease of \$3.4 million, from \$15.9 million, or 7.0% of sales; Results include \$5.9 million of EV program related costs versus \$7.4 million in the prior year
- Adjusted net income of \$5.3 million, or \$0.16 per share, compared to \$8.7 million, or \$0.25 per share in the second quarter of 2023
- Consolidated backlog<sup>1</sup> of \$354.4 million as of June 30, 2024, down \$155.8 million, or 30.5%, compared to \$510.2 million as of June 30, 2023.

"We continued to drive our Shyft operating strategy and saw progress in the quarter despite ongoing market softness. The SV team delivered another strong financial quarter, FVS generated sequential margin improvement, and Blue Arc achieved milestones that position us for vehicle delivery later this year," said John Dunn, President and CEO.

### M&A Transaction Update

Acquired Independent Truck Upfitters (ITU), a Midwest-based provider of vocational service body upfit for commercial fleets and government service vehicles on July 24, 2024. ITU sales were approximately \$55 million in 2023 with three locations in Iowa, Michigan, and Missouri.

The ITU acquisition aligns with our Specialty Vehicles segment growth strategy by expanding our service body product offerings and upfit capabilities. This transaction provides unique synergies and cross-selling opportunities with current products, adds chassis pools, and increases ship-thru capability to support future growth.

Relevant transaction details include:

- Initial cash consideration of \$46 million, subject to customary adjustments, with an \$8 million earnout subject to annual business performance over the next two years
- Expected EBITDA multiple less than 6.0x adjusted for tax benefits and synergies; Acquisition is expected to be accretive to EPS in 2025
- Forecasted to deliver ROIC greater than 15% by Year 3 of the transaction
- Funded with cash on hand and borrowings under our existing credit facility; Expected net leverage ratio of approximately 2.75x in the third quarter of 2024 and decreasing by year end 2024.

## 2024 Financial Outlook

"Our team remains focused on delivering our financial commitments for the year while we position the company for future growth. Our balance sheet remains solid, provides flexibility, and gives us the confidence to invest in growth initiatives," said Jon Douyard, Chief Financial Officer.

Full-year 2024 outlook, notwithstanding further changes in the operating environment, is as follows:

- Sales to be in the range of \$800 million to \$850 million; Assumes no Blue Arc EV revenue
- Adjusted EBITDA of \$45 to \$50 million, including EV spending of \$20 to \$25 million
- Net income of \$2.6 to \$6.9 million, with an income tax rate of approximately 20%
- Earnings per share of \$0.07 to \$0.20
- Adjusted earnings per share of \$0.35 to \$0.50
- Capital expenditures of approximately \$20 to \$25 million
- Free cash flow of \$25 to \$35 million

Dunn concluded, "Our recently announced strategic actions, including organizational streamlining and the ITU acquisition, have positioned us well for sustainable growth. In addition, we are actively preparing for Blue Arc production in late 2024 and building the commercial pipeline across the business. We believe these catalysts will enable us to deliver meaningful financial improvement in 2025."

*Footnote: 1.) Consolidated backlog does not reflect Blue Arc order activity*

**Reconciliation of Non-GAAP Financial Measures**

This release presents Adjusted EBITDA (earnings before interest, taxes, depreciation and amortization), adjusted net income, adjusted earnings per share, and free cash flow, each of which is a non-GAAP financial measure.

We define Adjusted EBITDA as income before interest, income taxes, depreciation and amortization, as adjusted to eliminate the impact of restructuring charges, acquisition related expenses and adjustments, non-cash stock-based compensation expenses, and other gains and losses not reflective of our ongoing operations.

We present the non-GAAP measure Adjusted EBITDA because we consider it to be an important supplemental measure of our performance. The presentation of Adjusted EBITDA enables investors to better understand our operations by removing items that we believe are not representative of our continuing operations and may distort our longer-term operating trends. We believe this measure to be useful to improve the comparability of our results from period to period and with our competitors, as well as to show ongoing results from operations distinct from items that are infrequent or not indicative of our continuing operating performance. We believe that presenting this non-GAAP measure is useful to investors because it permits investors to view performance using the same tools that management uses to budget, make operating and strategic decisions, and evaluate our historical performance.

Our management uses Adjusted EBITDA to evaluate the performance of and allocate resources to our segments. Adjusted EBITDA is also used, along with other financial and non-financial measures, for purposes of determining annual incentive compensation for our management team and long-term incentive compensation for certain members of our management team.

We define free cash flow as net cash provided by (used in) operating activities less purchases of property, plant and equipment and add proceeds from sale of property, plant and equipment. We believe this measure of free cash flow provides management and investors further useful information on cash generation or use in our operations.

We believe that the presentation of these non-GAAP measures, when considered together with the corresponding GAAP financial measures and the reconciliations to that measure, provides investors with additional understanding of the factors and trends affecting our business than could be obtained in the absence of this disclosure.
