# **Spartan Motors Posts Strong First Quarter Results**

May 7, 2020

Reports EPS Gain of 154% to \$0.33 on Sales of \$176.9 million

Adjusted EPS More Than Doubles to \$0.32

NOVI, Mich., May 7, 2020 /PRNewswire/ -- Spartan Motors, Inc. (NASDAQ: SPAR) ("Spartan" or the "Company"), a North American leader in specialty vehicle manufacturing and assembly for the commercial and retail vehicle industries, as well as for the recreational vehicle markets, today reported operating results for the first quarter ending March 31, 2020.

As previously announced, the Company divested its Emergency Response (ER) business effective February 1, 2020. Accordingly, the financial results of ER have been classified as discontinued operations for all periods presented. Unless otherwise noted, financial results presented are based on continuing operations.

## First Quarter 2020 Highlights from Continuing Operations

For the first quarter of 2020 compared to the first quarter of 2019:

- Sales increased \$4.7 million, or 2.8%, to \$176.9 million from \$172.2 million. Sales increased \$37.4 million, or 26.8%, excluding \$32.7 million of pass-through revenues from the one-time USPS truck body order in the prior year.
- Gross profit margin improved 850 basis points to 20.5% of sales from 12.0% of sales.
- Income from continuing operations increased \$6.9 million, or 142.9%, to \$11.7 million, or \$0.33 per share, from \$4.8 million, or \$0.13 per share. Income from continuing operations includes a \$2.6 million, or \$0.08 per share, income tax gain resulting from the recognition of a loss carryback relating to the divestiture of ER and available under the newly enacted CARES Act.
- Adjusted EBITDA increased \$10.0 million, or 119.4%, to \$18.4 million, or 10.4% of sales, from \$8.4 million, or 4.9% of sales. The prior year adjusted EBITDA as a percentage of sales was negatively impacted by approximately 110 basis points due to pass-through sales from the one-time USPS truck body order.
- Adjusted net income increased \$6.1 million, or 115.1%, to \$11.4 million, or \$0.32 per share, from \$5.3 million, or \$0.15 per share.
- Consolidated backlog at March 31, 2020, totaled \$344.7 million, up \$200.1 million, or 138.4%, compared to \$144.6 million at March 31, 2019, excluding the one-time, multi-year USPS truck body order of \$73.1 million.

"Despite the severity of the market conditions we are currently experiencing, we are pleased with the strong start to the year, as many of the transformative initiatives we pursued last year are gaining traction," said Daryl Adams, President and Chief Executive Officer. "With the divestiture of ER, we benefited from operating in a more focused core market within an expanded geographic footprint, as a result of our recent acquisitions in the delivery and specialty vehicle markets. Though we continued to manufacture in this challenging environment, our operations were impacted by the pandemic. Near the end of the first quarter, we took a series of aggressive actions to mitigate the Covid impact, including actions to safeguard our employees and adjust production on a plant-by-plant basis to keep up with customer demand."

Fleet Vehicles and Services (FVS)

FVS segment sales increased 10.6% to \$135.7 million from \$122.6 million due to increased volume related to walk-invan, truck body and upfits. Sales increased 50.9%, or \$45.8 million, excluding the \$32.7 million of chassis pass-through revenues from the USPS order in the prior year.

Adjusted EBITDA increased \$14.7 million to \$21.7 million, or 16.0% of sales, from \$7.0 million, or 5.7% of sales, a year ago. The increase was primarily due to sales volume, product mix, lower material and component costs and the impact of pass-through revenues from the USPS order in the prior year.

The segment backlog at March 31, 2020, totaled \$302.2 million, up 161.9%, compared to \$115.4 million at March 31, 2019, excluding the one-time, multi-year USPS truck body order. This increase reflects strong demand for vehicles across the segment's entire product portfolio.

## Specialty Chassis and Vehicles (SCV)

SCV segment sales decreased 20.2% to \$41.3 million from \$51.7 million a year ago. This was primarily due to a decrease in luxury motor coach chassis sales, partially offset by sales from Royal Truck Body (Royal) as a result of the acquisition completed in September 2019.

Adjusted EBITDA decreased \$1.2 million to \$3.7 million, or 9.0% of sales, from \$4.9 million, or 9.6% of sales, a year ago. The decrease was primarily due to lower luxury motor coach chassis and contract manufacturing sales volume, partially offset by the Royal acquisition.

The segment backlog at March 31, 2020, totaled \$42.4 million, up 45.6% compared to \$29.1 million at March 31, 2019, primarily due to the Royal acquisition.

## Liquidity and COVID-19 Virus Impact

Under the Cybersecurity & Infrastructure Security Agency ("CISA") guidelines, Spartan's products are considered essential and that allowed us to produce and finish vehicles to customers and dealers. These vehicles are used in critical applications, including shipping and delivery services, infrastructure maintenance and federal, state and local governments.

Spartan's access to capital remains strong, with \$75 million of borrowing availability and \$41 million of cash on hand at March 31, 2020. Additionally, the Company has taken proactive measures to further fortify its balance sheet and ensure its liquidity is adequate as it manages through the pandemic, including:

- Implementing broad changes in work practices to ensure the health and safety of employees, including additional personal protective equipment (PPE), increased the frequency of cleaning and hygiene procedures and remote work where possible
- Adding cash to the balance sheet above normal operating levels by using existing credit lines
- Eliminating non-critical capital spending and discretionary operating expenses
- Deferring employer payroll tax payments under provisions of the CARES Act
- Implementing temporary furloughs for both salary and hourly employees in select plant locations
- Provisionally freezing hiring and deferring wage increases
- Temporarily reducing executive and board compensation

"We are confident we have taken the measures necessary to help ensure the safety and well-being of our employees, while also implementing actions to help mitigate the financial impact of the pandemic," continued Adams. "We are currently manufacturing in approximately 80% of our facilities at full or modified production levels, and believe we have ample liquidity to fund our operations as we navigate through this crisis."

## Withdrawing Full Year 2020 Guidance

Despite the strong start to the year and the ongoing market demand for our products, the magnitude and duration of the COVID impact remain uncertain. The Company currently anticipates returning to normal production levels by the end of May and has the backlog position to deliver solid growth for the balance of the year, excluding USPS chassis pass-through sales. However, production at any of our facilities may be further impacted by chassis and component availability, as well as possible future government, market or Company response related to the pandemic. For these reasons, Spartan is withdrawing full year 2020 financial guidance and plans to provide an updated outlook once we have greater clarity regarding the implications of COVID-19 on our business.

"Our strong first quarter results are a major indicator that our business transformation efforts and strategy are working. As we weather this storm, we are being deliberate about making the production adjustments needed to operate the business safely and efficiently in the short-term, and I'd like to thank the team for their continued flexibility and

cooperation in our joint response. We believe the disruption to our business is only temporary. Despite the current headwinds, our strong backlog position and increasing demand provide us with an added measure of confidence over the long-term," concluded Adams.

#### Conference Call, Webcast, Investor Presentation and Investor Information

Spartan Motors will host a conference call for analysts and portfolio managers at 10 a.m. EDT today to discuss these results and current business trends. The conference call and webcast will be available via:

Webcast: www.spartanmotors.com/investor-relations/webcasts

Conference Call: 1-866-652-5200 (domestic) or 412-317-6060 (international); passcode: 10142666

#### **About Spartan Motors**

Spartan Motors, Inc. is a North American leader in specialty vehicle manufacturing and assembly for the commercial and retail vehicle industries (including last-mile delivery, specialty service and vocation-specific upfit markets), as well as for recreational vehicle markets. The Company is organized into two core business segments: Spartan Fleet Vehicles and Services and Spartan Specialty Chassis and Vehicles. Today, its family of brands also include Utilimaster, Royal Truck Body, Strobes-R-Us, Spartan Chassis, Spartan Authorized Parts, Spartan Authorized Service Centers, and Spartan Factory Service Centers. Spartan Motors and its go-to-market brands are well known in their respective industries for quality, durability, aftermarket product support and first-to-market innovation. The Company employs approximately 2,700 associates, and operates facilities in Michigan, Indiana, Pennsylvania, South Carolina, Florida, Missouri, California, Arizona, Texas, and Saltillo, Mexico. Spartan reported sales from continuing operations of \$757 million in 2019. Learn more about Spartan Motors at www.spartanmotors.com.

This release contains several forward-looking statements that are not historical facts, including statements concerning our business, strategic position, financial projections, financial strength, future plans, objectives, and the performance of our products and operations. These statements can be identified by words such as "believe," "expect," "intend," "potential," "future," "may," "will," "should," and similar expressions regarding future expectations. Furthermore, statements contained in this document relating to the recent global outbreak of the novel coronavirus disease (COVID-19), the impact of which remains inherently uncertain on our financial results, are forward-looking statements. These forward-looking statements involve various known and unknown risks, uncertainties, and assumptions that are difficult to predict with regard to timing, extent, and likelihood. Therefore, actual performance and results may materially differ from what may be expressed or forecasted in such forward-looking statements. Factors that could contribute to these differences include future developments relating to the COVID-19 pandemic, including governmental responses, supply chain shortages, and potential labor issues; operational and other complications that may arise affecting the implementation of our plans and business objectives; continued pressures caused by economic conditions and the pace and extent of the economic recovery; challenges that may arise in connection with the integration of new businesses or assets we acquire or the disposition of assets; restructuring of our operations, and/or our expansion into new geographic markets; issues unique to government contracting, such as competitive bidding processes, qualification requirements, and delays or changes in funding; disruptions within our dealer network; changes in our relationships with major customers, suppliers, or other business partners, including Isuzu; changes in the demand or supply of products within our markets or raw materials needed to manufacture those products; and changes in laws and regulations affecting our business. Other factors that could affect outcomes are set forth in our Annual Report on Form 10-K and other filings we make with the Securities and Exchange Commission (SEC), which are available at www.sec.gov or our website. All forward-looking statements in this release are qualified by this paragraph. Investors should not place undue reliance on forward-looking statements as a prediction of actual results. We undertake no obligation to publicly update or revise any forward-looking statements in this release, whether as a result of new information, future events, or otherwise.

#### Reconciliation of Non-GAAP Financial Measures

This release contains adjusted EBITDA (earnings before interest, taxes, depreciation and amortization), which is a non-GAAP financial measure. This non-GAAP measure is calculated by excluding items that we believe to be infrequent or not indicative of our continuing operating performance. We define adjusted EBITDA as income from continuing operations before interest, income taxes, depreciation and amortization, as adjusted to eliminate the impact of restructuring charges, acquisition related expenses and adjustments, non-cash stock-based compensation expenses, and other gains and losses not reflective of our ongoing operations. Adjusted EBITDA for all prior periods presented have been recast to conform to the current presentation.

We present the non-GAAP measure adjusted EBITDA because we consider it to be an important supplemental measure of our performance. The presentation of adjusted EBITDA enables investors to better understand our operations by removing items that we believe are not representative of our continuing operations and may distort our longer-term operating trends. We believe this measure to be useful to improve the comparability of our results from period to period and with our competitors, as well as to show ongoing results from operations distinct from items that are infrequent or not indicative of our continuing operating performance. We believe that presenting this non-GAAP measure is useful to investors because it permits investors to view performance using the same tools that management uses to budget, make operating and strategic decisions, and evaluate our historical performance. We believe that the presentation of this non-GAAP measure, when considered together with the corresponding GAAP financial measures and the reconciliations to that measure, provides investors with additional understanding of the factors and trends affecting our business than could be obtained in the absence of this disclosure.

Our management uses adjusted EBITDA to evaluate the performance of and allocate resources to our segments. Adjusted EBITDA is also used, along with other financial and non-financial measures, for purposes of determining annual and long-term incentive compensation for our management team.
