

**Right for the job,
ready for the road ahead.**

Get there with work-ready trucks and vans

The Shyft Group builds and upfits service and delivery vehicles right for the job — and ready for the road ahead. Fueled by 50+ years of experience, Shyft drives performance in last-mile delivery, trades and utilities, municipal services, and more. Whether you seek all-electric commercial vehicles built from the ground up, van and truck bodies with the gas or diesel chassis of your choosing, or precision-engineered accessories, our expert teams and worldclass brands meet you where you are — so you can get where you want to go.

Purpose-Built Performance

Backed by millions of miles of road testing and customer ride-alongs, our Work-Driven Design® approach makes commercial vehicles smarter and more effective on the job. Shyft is here to understand your business and customize the vehicle and upfit that takes you further.

Maximize safety and customer satisfaction.

Minimize downtime and risk.

Optimize workflow and driver experience.

Commercial-Grade Quality

Shyft vehicles, upfits, and accessories are made to handle the payload and rigors of real work on the road. Count on Shyft for top-tier materials, manufacturing, components, and service.

Bumper-to-bumper vehicle design and build.

OEM-integrated chassis + accessory upfit.

Aftermarket value-add.

Portfolio Power, Ready Where You Are

The Shyft Group drives choice and competitive advantage through a collection of brands that span industries, the vehicle manufacturing value chain, and the continental United States. Everywhere and every way we deliver, Shyft puts cross-brand insights and capabilities to work for our customers and channel partners.

With coast-to-coast U.S. manufacturing, sales, and customer service centers, Shyft provides the confidence and convenience of buying local wherever you need work-ready trucks and vans. We can add value and simplicity every step of production — for your next multi-service vehicle or high-performance fleet.

Last-Mile Delivery & Service

BLUE ARC

Blue Arc

We created Blue Arc™ to provide the commercial industry with commercial-grade EV solutions. Our EV solutions deliver purpose-built, truly sustainable products that are the culmination of decades' worth of experience in last mile delivery and custom chassis design and production experience. With our proven production capability, we are ready to electrify fleets at scale and charge ahead.

Class 4 All-Electric Commercial Walk-in Vans

- BA4 700 (740 cubic feet cargo capacity)
- BA4 800 (850 cubic feet cargo capacity)
- BA4 1000 (960 cubic feet cargo capacity)

Utilimaster

Moving ahead of the competition when delivering products and services requires precision, planning and the perfect vehicle. With our unique Work-Driven Design® process, Utilimaster offers a wide range of vehicles and upfits that keep business moving at the speed of demand. From class 2-7 GVWR, Utilimaster builds and upfits the right vehicle for the right job.

That is how world-class brands like UPS, FedEx, the United States Postal Service, Amazon, Cintas, Con-Edison and Frito-Lay deliver.
